

## NORTH INCH JUNIOR GOLF CLUB FIRST AID GUIDELINES

Parents/carers must complete a *Partnership with Parents/Carers Form* before their child participates in sport to ensure that sports volunteers/staff running an event or activity are made aware of any pre-existing medical conditions, or medicines being taken by participants or existing injuries and treatment required.

North Inch Junior Golf Club will ensure that

- There is an accessible and well-resourced first aid kit and a working telephone at the venue – the Starters' Hut
- Where possible, access to medical advice and/or assistance will be made available.
- Only those with a current, recognised First Aid qualification will treat injuries – Tom Woods
- Parents/carers will be informed as soon as possible of any injury and action taken.
- An *Incident Recording Form* will be completed if a child sustains a significant injury and the details of any treatment given will be recorded. Good sense or sport specific guidance will be used to determine which injuries are significant.
- The circumstances of any accidents that occur will be recorded and reviewed to avoid it happening again.
